

Curtain PIR Detector

LH-912D+/K

Innovative railway installation method,
easy for installation

Curtain PIR Detector LH-912D+

Curtain passive infrared detector works according to human bodies' infrared spectrum. The detecting range is narrow.

- Narrow detecting angle, only 15 degree
- Distance optional 6M/10M
- External tamper
- White light immunity 20000 lux
- Temperature auto-compensation, avoiding false alarm
- Alarm output N.C./N.O. optional
- Innovative railway installation method, easy for installation
- -K bracket only for LH-912D+K

Innovative railway installation method LH-912D+

-K plug-in installation method LH-912D+K
